Ms. Wallace requested approval of the following Educational Programs and Courses:

- Bryman College in Los Angeles and Whittier were withdrawn due to the fire in Southern CA and their inability to complete site reviews.

It was m/s/c (Yokoyama/Terlet) to appoint new DEC Members.

### Dental Materials Fact Sheet Committee

Board President, Dr. Alan Kaye, gave a brief historical background on the Dental Material Fact Sheet and the prior board's agreement with the Consumers for Dental Choice to develop a consumer-friendly version of the fact sheet. Although this agreement was made with the prior board, Dr. Kaye and Mr. Pinkerton, along with the newly created board agreed to honor the commitment to Mr. Charlie Brown to create a consumer-friendly fact sheet. As a result, Dr. Chester Yokoyama and Dr. Ariane Terlet were appointed to this committee to oversee the production of this fact sheet. The committee was instructed to create a consumer-friendly fact sheet mirroring the existing fact sheet and to have it reviewed by the Department of Consumer Affairs' Communication and Education Division for readability. The final product was presented at this meeting for the board's review.

Committee Chair, Dr. Chester Yokoyama made a motion to adopt the consumer-friendly fact sheet and to distribute it as appropriate. The motion was seconded by Ms. Tricia Osuna.

Public comments were given by the following:

- Ms. Lois Hill-Hale – Press Secretary for Congresswoman Diane Watson
- Ms. Ruth Deutsch – Consumer
- Ms. Anita Vasquez – Consumers for Dental Choice
- Professor James Adams - Consumer
- Mr. Charlie Brown – Consumers for Dental Choice
- Mr. Grant Laden - Consumer

- Dr. Joel Berick – General Dentist
- Dr. Robert Viasagna – Mercury-Free Dentistry of Mexico
- Dr. George Schuchard – Restorative Prothsdontist
- Ms. Cathy Mudge – California Dental Association
- Dr. William Heisler – Professor at Loma Linda University
- Ms. Kellie Gallahger – Consumer
- Dr. Luis Dominicis – Latino Dental Association
- Mr. Jim Clark – Staff member for Congresswoman Diane Watson

Dr. Newton Gordon commented that some of the language in the fact sheet is considered inflammatory to some groups and that the board should come to a consensus as to how to clear up this difference. He suggested the following changes:

~~- In March 2003, organized dentistry issued the following warning as part of a notice to patients:~~

- A message to parents and pregnant women: Mercury ~~can~~ may harm the developing brain of a child or fetus, ~~an intense debate exists about the risks of dental amalgam for children and pregnant women.~~ There is intense debate about the risks of mercury in dental amalgam. The outcome or result on the safety of dental amalgam is not final.

- Composite filling material such as ....

Dr. George SooHoo asked if this version of the fact sheet complied with B&P Code Section 1648.10 and if it included all the materials listed in the existing fact sheet. Legal Counsel, Ms. Norine Marks, verified that the proposed fact sheet did not include all the materials referenced in the statute or listed in the existing fact sheet. She suggested that if these materials are still currently being used by the profession, then they needed to be included in this fact sheet. Ms. Marks asked the board to clarify whether this fact sheet is an update to the existing fact sheet and will be replacing it or if it will be given to patients in addition to the current fact sheet.

Dr. Yokoyama agreed to amend his motion to include the suggested changes and have the board vote on it right now.

It was m/s/c (Klein/Gordon) to approve the new Dental Materials Fact Sheet in concept, with proposed amendments, considering the existing DMFS according to law and board member edits. The committee will meet separately to develop final language for full board approval by 12/31/03.

## Public Comment

Dr. Joel Berick expressed his disappointment of the board's decision to expedite the Fact Sheet rather than focusing on accuracy. It was decided that the modified Fact Sheet will go out with the meeting notices so the public will have a chance to review it prior to the teleconference meeting.

Ms. LaDonna Drury-Klein would like to make it Board policy that under no circumstances do the members get handed items to review the day of the board meeting. If handouts cannot be provided 10-14 days prior to the meeting, they will not be considered. Dr. Ariane Terlet clarified by stating if the issue requires Board action, it will not be considered, but handouts for information, are okay.
