

**Dental Board of California
Approved Coronal Polish Course**

A currently-licensed Registered Dental Assistant (RDA) may perform coronal polishing and/or ultrasonic scaling ONLY after the completion of a Board-approved program for each. These courses are referred to as "expanded functions". They should not be confused with the separate "Extended Functions" license that can be obtained by a RDA following specified training and passage of a specific State clinical examination.

All applicants for RDA licensure must submit evidence of having completed an approved coronal polishing course, and all existing RDA licensees must do so prior to March 31, 2006 or their license will be automatically suspended.

The Dental Board (Board) must be notified of each person's successful passage of the required courses PRIOR to performing the duties, on a specific card that is available from the Board. Whether the card is sent by the program or by the student, it must be signed and sealed by officials of the program, certifying that certain requirements have been met. Once certified, these duties can be performed under the direct supervision of the supervising dentist.

The Board evaluates coronal polishing and ultrasonic scaler courses for approval by the Dental Board. The regulations governing the approval of coronal polishing courses and the regulations governing the approval of ultrasonic scaling courses are available on the Dental Board's regulations web pages. Contact the Dental Board at 916-263-2595 to obtain an application for course approval.

Following is a list of approved courses. Approved RDA Educational Programs listed below are approved to offer Coronal Polishing Courses to their students. They MAY also have separately-approved programs for others as well - contact the program

Approval Number	Provider	Address	Contact Person	Phone Number	Email	Website	Offered to the Public?
