Agenda Item LCP 2 – Legislation - Discussion and Possible Action

AB 17 - Dental Corps Loan Repayment Program, would allow dentists to contribute a voluntary \$50 fee upon license renewal to be specifically designated toward this program. Executive Officer Wallinder noted that this is an extension of the existing program, staff is already in place and he did not feel that the bill would result in a substantial increase in workload.

AB 269 – Dentists License Renewal would require dentists to report any specialty board certification and their practice status, which would be posted on the both the Board and COMDA's website. It would also allow dentists and auxiliaries to report their cultural background and foreign language proficiency by the zip code of their primary practice and requires the Board to tabulate the reported information and make it available on the Board's website by October 1 of each year. Executive Officer Wallinder stated that the purpose for this is access to care for non-speaking English patients. He also stated that this bill is mirrors what is being done by the Medical Board. Member Bettinger stated that he is concerned that this could be discriminatory if the information was made available to the public on each individual license record.

SB 387 – This bill, sponsored by the California Dental Association, would allow the spouse, estate or conservator or a deceased or sole-practitioner dentist to hire or contract with a licensed to continue care to the practice's patients for a period not to exceed 12 months while the practice is sold. LaVonne Powell, legal counsel stated that staff needs to work with CDA to work out the process in detail.

SB 534- Wallinder reported that this bill is moving quickly through the legislative process. Cathy Mudge stated that CDA will be in communication with the author and sponsors to talk about 6-10 issues of why they are opposed. SB 620 – This bill eliminates the sunset requirement from existing law governing administration of general anesthesia.
